

# CIRIKLI

## PERFORMANCE REQUIREMENTS

Artist will provide a total of \_\_\_\_\_ performers inclusive of \_\_\_\_\_ Stilt Birds and \_\_\_\_\_ Shepherd(s).

Purchaser to provide one (1) large, secure private dressing room furnished with two (2) full-length mirrors, one (1) clothes rack, two (2) 8'x30" tables, one (1) 72" round table, ten (10) chairs, evening meal and light refreshments day of show.

Please note that each Cirikli Bird stands 11' to 12' tall and long.

Since it is not safely feasible for the Stilt Birds to climb stairs, ride escalators and/or fit into standard-size passenger elevators, this dressing room should have high doors and ideally be located on the same floor level as the function space. The minimum double-door height into the performance area for Cirikli is 10'.

If your function space is in a tent, please be advised that access in and out of the tent must be available at all times during the event and openings must adequately accommodate the Birds. Assistance must be made available for opening the tent flaps and any tie downs that may be necessary to secure the opening.

Stilt Birds are exactly that, performers on stilts. So, performance area(s) must be free and clear of debris - solid, fairly level, not extremely sandy or rocky. Some event locations are more challenging than others, but once an engagement has been confirmed, we have always been able to work through any logistical challenges and presented a totally unique, spell-binding and memorable performance.

Please be advised accommodations, airfare, per diem may be required of Purchaser based upon the geographic location of event.
